Call for participation

We are pleased to invite submissions of papers for the 11th International Conference “Recent Challenges in Entrepreneurship Innovation and Legal Framework” that will be held at the Faculty of Economy, University of Elbasan “Aleksandër Xhuvani”, on 18 November 2023. This conference has a multidisciplinary approach and intends to present high quality theoretical and empirical research papers from a broad range of disciplines, including aspects of entrepreneurship innovation, business administration, finance and accountability, economics, law, technology of information, tourism, development studies, social science, political science, international relations and other related disciplines in order to construct the applied empirical models to encourage the social innovation, having the focus on the latest issues of high public sensitivity as: innovation, entrepreneurship, global warming, personal data protection, social inclusion and social justice, aiming to establish the premises to take care together for a better future. A comparative perspective of these issues between Albania, the States of the Balkan and even Member States of the European Union would be of much interest and welcomed. The conference provides an excellent opportunity to conduct scientific exchanges between Albania and the Balkan and the European States on research findings within the conference fields.

The scientific research, innovation, promotion of the social innovation, economic and legal reforms, interdisciplinary issues with legal-economic nature and analytical technology with social character which aim to scale back the historical, social and political aspects of the Balkans and European States are very helpful to improve the quality of the standard of life through the improvement of the services such as public health, transport, digital services and other new public services. Thus, there is always a need to analyze and study coherently the current and future developments and the issues related to them from the point of view of economic, law and social policies.

Our aim is to bring together academics, scholars, researchers, authors and PhD students from Albania and other Balkan and European countries to share their knowledge and exchange ideas on the recent developments regarding conference topics. The conference purpose is to establish a debate among national, regional, and international scientific community members on the recent challenges of entrepreneurship innovation and legal framework and to provide applied empirical models to encourage the social innovation, demonstrating the approaches to be followed mainly by researchers in economic, legal and social fields, to enable their studies and research work to contribute to the process of sustainable economic development. These can be economic, legal and social models which are currently being pursued or can be pursued in the future by the Balkan States and European States which are aspiring a better future for their citizens.

The conference will be focused, but not limited to the following **topics**:
